Welcome to Plan Pacolet!
The project website for the Town of Pacolet's Comprehensive Plan update.

ABOUT THE PLAN

Plan Pacolet is the Town of Pacolet's process to prepare a Comprehensive Plan. The Comprehensive Plan will set a strategic, long-range vision for how the Town will grow and develop over the next 10 to 20 years. As the last plan was created in 1999, it is important to adapt the vision to meet present and future community needs. The plan will include recommendations specific to land use, transportation, housing, environmental resources, and a range of other important topics. The State's Planning Enabling Act requires communities to maintain an updated comprehensive plan to administer zoning, put in place development impact fees, and influence other development related matters.
